

## ***INSTRUCTIONS AFTER CHIN IMPLANT***

A nurse will call you between 4 PM and 7 PM the day of your surgery to check on your recovery. If you have any unusual bleeding, severe pain (not responding to pain medication) or any signs of infection, call (617) 786-7600 anytime to reach the doctor.

### **Activity:**

- Immediately after surgery you should rest for the first 48 hours.
- Stay in the company of a responsible adult for the first night.
- Commence on a light or liquid diet as tolerated as anesthesia medications can make you feel nauseous. You may want to begin with soft foods, chewing may increase your discomfort.
- To minimize swelling you should keep your head elevated at all times. Sleep with at least two pillows or in a recliner.
- In some cases there is temporary numbness for weeks to months after surgery due to stretching of the nerve supply.
- Avoid any strenuous activity, heavy lifting or bending over for the first two weeks (bend from the knees).
- During the first 14 days after surgery no housework or physical labor
- Avoid dental work for at least 4 weeks after surgery to prevent manipulation of the jaw.
- Avoid direct sun exposure. Wear a high grade sun block and a hat or visor to keep the incisions protected from the sun.

### **Dressing Care:**

- Leave the dressing in place for 24 hours.
- After the dressing is removed you may allow the surgical site to get wet briefly while showering then pat gently dry. Do not use a perfumed or medicated shampoo. Wash your face with a mild cleanser.
- You may apply moisturizer to your face but away from your suture line.

### **Medication:**

- You may take Tylenol for mild/moderate discomfort. (Be aware if the pain medication you are taking contains Tylenol. Do not take two items containing Tylenol.)
- Take prescription pain medicine as needed for more severe pain according to the instructions on your prescription.
- Continue to take the supplemental vitamins and arnica that was given to you preoperatively.

**Please use the medication prescriptions already given to you:**

**Pain Medicine** \_\_\_\_\_

**Anti-Nausea Medicine** \_\_\_\_\_

**Follow-up:**

**Your 1<sup>st</sup> postop visit is** \_\_\_\_\_
